

NEW LIBERTY LOAN ALLOTMENTS MADE; CAMPAIGN OPENS

Mobilization of the nation's financial forces began "full speed ahead" today when the Liberty loan committee of the twelve Federal reserve districts received their quotas of the \$2,000,000,000 bond issue which will be launched on the War Anniversary, April 6.

Slight rearrangement of the quotas has been made through a decrease of \$50,000,000 in the total allotted to the Boston district. This sum was apportioned among six other districts, making the only change in the allotments that prevailed during the second bond campaign, which called for an issue of a similar amount.

With virtually the same committees, the same workers, trained and primed for the contest, the twelve central committees flashed the allotments and quotas to the cities, towns and counties within their districts, and it is safe to predict that the country has gotten off to a flying start in the organization of the campaign which will be put into action on April 6.

The Treasury Department has not announced maximum quotas only giving the minimum amounts which are necessary to complete the total of the third loan. Oversubscription will come, it is confidently expected by bankers and Secretary McAdoo will not reject the excess.

The honor flag is flying over the Potomac and of the Treasury Building awaiting the name of the first State or city or town to complete its quota after the campaign starts.

The quotas and per cent allotments of the twelve districts are: Boston, \$250,000,000, 3.33 plus; New York, \$900,000,000, 30 per cent; Philadelphia, \$350,000,000, 8.33 plus; Cleveland, \$300,000,000, 1 per cent; Richmond, \$120,000,000, 4.33 plus; Atlanta, \$90,000,000, 3 per cent; Chicago, \$425,000,000, 14.16 plus; St. Louis, \$130,000,000, 4.33 plus; Minneapolis, \$105,000,000, 3.5 per cent; Kansas City, \$120,000,000, 4.33 plus; Dallas, \$80,000,000, 2.66 plus; San Francisco, \$210,000,000, 7 per cent.

NELSON MORRIS REPORTS TODAY AS DOLLAR YEAGER

Nelson Morris, youthful chairman of the board of directors of Morris & Co., Chicago packers, is expected to report today at the quartermaster general's office for assumption of his duties as a "dollar-a-year" civilian expert.

Mr. Morris left Chicago, according to a statement given out by his company Tuesday evening for the Capital to take up his new work.

Mr. Morris, it is said, filed an industrial claim with his exemption board asking to be placed in class 4 under the draft, but his claim has not yet been acted on. He is twenty-six years old and unmarried.

He will devote himself to supplying the Government with expert knowledge of various industries for the duration of the war.

COUNTERFEIT FOOD CARDS IN GERMANY

Germany is overrun with counterfeiters, according to the Vossische Zeitung, copies of which have just been received here. They are not money counterfeiters—they are food card counterfeiters. From the business rooms of the bread commission in Berlin, the rough "copy" of the cards is carried under heavy military guard, to the printers and until they are issued, a cordon of guards surrounds the establishment.

One instance pointed out by the Vossische Zeitung was where an employee of the printing establishment was offered 6,000 marks by a gang of counterfeiters for a plate from which the cards were printed. The paper for the cards is secured outside of Prussia and every caution is taken to prevent supplies of this fall into other hands.
